## Skills

### • Languages -

JavaScript, HTML5, CSS3

### • Frameworks -

ReactJS, React Native, Expo

### • Libraries -

NodeJS, MongoDB, Google  
Firebase, TailwindCSS, Bootstrap,  
Redux, React Navigation, Axios,  
Thunk, MaterialUI

### • Tools -

Git/GitHub, Android Studio,  
Figma

## Expertise

- React Native
- MERN Stack

## Language

English

Hindi

## Projects

### ○ Memories Keeper : A Social Media Application (MERN Stack)

- Developed a full-stack web application using the MERN (MongoDB, Express.js, React, Node.js) stack. : [Link](#)
- The application allows users to perform CRUD operations on data, with state management handled by Redux. Pagination is implemented using Material UI, and JWT authentication is used to secure user data. The application also includes a search functionality and a recommended feature. : [Source Code](#)

### ○ Phanox : Ecommerce Full Stack Application (ReactJS)

- The project is a full-stack ecommerce application built using Next.js, Stripe for payment, and Sanity to manage content. : [Link](#)
- The application allows users to add them to their cart, and checkout using Stripe for payment processing. The content of the application is managed using Sanity, which provides a structured way to store and manage content. : [Source Code](#)

### ○ JSearch : Job Search App (React Native, Expo)

- A job search app built with React Native, Expo, and JSearch API. The app allows users to search for jobs posted on LinkedIn, Indeed, Glassdoor, ZipRecruiter, BeBee, and many others.
- It includes pagination and other functionalities. Technologies used: React Native, Expo, JSearch API, Rapid API. : [Source Code](#)

### ○ Food Delivery App (React native, expo)

- A mobile application built with React Native, React Native Maps, Redux, and Sanity CMS for content management.
- The app allows users to order food from restaurants and track the delivery status. : [Source Code](#)

## Professional Development

### Full Stack Web Development Bootcamp (Udemy) [↗](#)

JavaScript, React JS, Node JS, Bootstrap, MongoDB

### React Native By Meta (Coursera) [↗](#)

Lists and Text Input in React Native, Pressable, Images and Hooks, React Navigation

### React Native Full Stack Application Development (Udemy) [↗](#)

React Native, React Navigation, Redux, Node/Express, MongoDB, Express-validator, JWT, formik, yup
